

## About me

*I live in the San Francisco Bay Area and would consider traveling to other locations.*

*My ceremonies can be created just for the two of you, or be more traditional if you prefer.*

*I became a non-denominational officiant due to my desire to support couples who believe in the lifetime joys, support and growth of a truly solid, loving relationship. The development of character within individuals experiencing this life changing event is truly inspiring. After all, who doesn't love a great love story? My experiences working within the community college system, housed with student support services, special events, career advising and additionally as a coordinator for public broadcasting, has provided me with a lifetime of knowledge working with students, families, foreign students, artists and musicians.*

## Testimonial

*“For those looking for an officiant who will bring an intimacy to their ceremony, we highly recommend Diane Schaff. Diane took the time to understand our higher beliefs and long history together and used our story to weave a beautifully touching ceremony. She is a joy to work with and will make your wedding one to remember for years to come. You will not be disappointed”!*

*David Hiegel and Debra Copeman*
